

You have an account on our new [RMOUG.ORG](https://www.rmoug.org) site if you are:

- a Member of RMOUG**
- a Non-Member Subscribed to Our Mailing List**

Enter your email address in the upper right corner and click the "Forgot Password" link to set your password.

Once your password is set, then login and click the "View Profile" link next to your name to review and update your current contact information and emailing subscriptions.

If you are a member, your Profile displays your current Membership status and a link to renew your membership. **Active Members will have access to the Members Menu Item.**

RMOUG is seeking volunteers who want to help grow our organization to run for the 2021/2022 RMOUG Board of Directors. Our Call for Candidates is currently open until April 30, 2021. Please contact Elaine Magnuson at president@rmoug.org for more details.

Missed Training Days this year?

Attended, but just couldn't fit in all of the sessions you wanted?

Check out the three video recordings we have posted on our [home page](#) for everyone to view. Or [JOIN TODAY!](#) and view all 71 recorded sessions from Training Days 2021.

Our members have access to view all recorded sessions on our *NEW* Members-Only section. Just [Login](#) and go to the **Members** menu item and under "Training Days Reruns" select the session you want to view.

Welcome to Spring 2021! RMOUG has several events coming up and some exciting news from the Board ...

- Our transition to Wild Apricot Membership program has launched and ready for you to explore. Thank you to all the hard work from Ann, Sande, Patrick, and Elaine to get this done.
 - 2021/2022 Board of Directors Call for Candidates is open until April 30, 2021.
 - 2021/2022 Board of Directors Election, voting opens May 3, 2021, and will close on May 18, 2021. Ballots will be sent to all active members by May 3, 2021, so watch your inboxes.
 - Our Annual Membership Meeting and Education Workshop will be a full-day training event on May 19, 2021, more details to come.

[Oracle Partitioning for DBAs and Developers: Why, When and How To Use It](#)

Speaker : Franky Faust

Most VLDBs should use partitioning and in today's world scaling up and out a database is something critical, so every DBA and Developer should work together to accomplish this task. Partitioning may help the application run faster and also help DBAs to perform their work easier. The partitioning feature exists in Oracle since version 8 and since then it is being enhanced each new version.

From 12cR2 up to 19c we have new features that make our life much easier. We will see some of these enhancements implemented until Oracle 19c. The main goal here is to show some use cases with different types of partitioning and mainly present scenarios which we should use and scenarios we should not use partitioning.
